PRODUCT HIGHLIGHT

RadioXtreme brings to you a totally new breeze of experience that liven up your daily computing routine. Working on the PC will never be as monotonous with your favourite radio channels on the latest news updates and music.

RadioXtreme comes equipped with an IR Remote Control to provide the full remote steering possibilities over the radio functions and more. Listen and record your favourite music channel is simply a button away. It even lets you shut down the PC with the embedded Auto Windows shutdown function.

For the business executive, RadioXtreme remote control comes preprogrammed for PowerPoint. Impress your colleagues and business associates by controlling your PowerPoint presentation remotely without any additional expensive equipment.

If that s not enough, the RadioXtreme remote control has reserved additional 4 program group which you can configure to work with your other favourite applications.

For the Linux enthusiasts, appropriate source codes will be released on our website to enable you to develop your preferred applications with RadioXtreme.
